

GET READY FOR WINDOWS 11

WHAT IS WINDOWS 10 END OF LIFE (EOL)?

No security updates/bug fixes/technical support after **October 14, 2025**

Windows will continue to function.

CAN I KEEP USING WINDOWS 10 PAST EOL?

Windows 10 will continue to work.

Microsoft will no longer provide updates.

Don't trust Private firms that claim they can provide updates past EOL.

Antivirus will not keep you safe past EOL!

Bad actors are likely stockpiling zero day exploits to use after EOL.

Using past EOL violates Cyber insurance and compliance requirements.

WHAT ARE WINDOWS 11 SYSTEM REQUIREMENTS

CPU: 1GHz, 2+ cores, compatible.

Disk: 64GB+

RAM: 4GB+

Firmware: Secure Boot, UEFI

TPPM: Version 2.0+

Graphics: DirectX 12 or later

CAN I UPGRADE MY COMPUTER

Newer computers can frequently be upgraded.

Search for 'PC Health Check App', download, and run.

Will tell if your computer is Windows 11 compatible.

HOW DO I UPGRADE TO WINDOWS 11?

Verify your computer meets Windows 11 system requirements.

Upgrade may show up in Settings > Windows Update

Search for Windows 11 Installation Assistant
